About This Content

Start your engines - this is Arma 3 Karts! When we unveiled our 2014 April Fools joke via the Splendid Split parody video, some of you were quite keen for us to release the go-karts package for real. And here it is, for everyone to try. Enjoy this little sidestep in our typically military sandbox!

Key Features

- **Kart** - A 20hp 4-stroke engine go-kart with four unique liveries and one random color variant.

- **Racer** - Matching race drivers wearing dedicated race helmets.

- **Marshal** - A racetrack safety coordinator.

- **Starter Pistol** - This special revolver is used to signal the start of races and fires signaling flares.

- **Race Objects** - Various (plastic) barriers used to build racetracks.

- **Time Trials** - A new form of singleplayer Challenges delivered in 5 Karts Check Point races against the clock.

- **Zeus Race & Modules** - Special modules to build Check Point races, and pre-set races to jump straight into the multiplayer action.
